Someone needs to call me now so I understand what that number is to be used for before it goes live. 303.808.1738

At this morning's meeting we talked about a phone number. They were going to check if the phone number was OK to use.

Hi everyone,

I just heard that there are public meetings in Albuquerque every night through Friday at 6PM. This would be great to post on the website.

Jeff—see this and my previous message (a phone number would be GREAT to have; our EISC in Region 8 can't keep up with the call volume).

Thanks!

Hi everyone!

Fran is up here with me, and we're waiting for the national website to go live; it will be at this address:

<http://www.epa.gov/goldkingmine>. As SOON as this site goes live, our current R8 page (<http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>) will be redirected to the national page. So, it really won't exist anymore.

Also, like the R8 version, it needs a phone number. So, let us know if the 800 number is going forward—or if you want us to post the 970 number that Fran gave me (in the interim). Jeff Morin (in HQ) and I will be the ones updating/maintaining/publishing this website.

So, let us know when we can post either the 970 or the 800 number.

Thanks!
